

- Here are sample rules and corresponding correct responses to use as you play.
- Rules are generally ordered from less challenging to more challenging, however some rules in the same grouping are for similar levels of challenge.
- Refer to the Shape Glossary for detailed shape illustrations.

Rules	Correct Shapes to Jump on
Jump on all shapes that have [0/3/4/5/6] straight side(s)!	<p>0 sides: Circles (and ovals)</p> <p>3 sides: Triangles</p> <p>4 sides: Squares, rectangles, rhombuses, trapezoids, parallelograms, quadrilaterals</p> <p>5 sides: Pentagons</p> <p>6 sides: Hexagons</p>
Jump on all shapes that have [0/3/4/5/6] angle(s)!	<p>0 angles: Circles (and ovals)</p> <p>3 angles: Triangles</p> <p>4 angles: Squares, rectangles, rhombuses, trapezoids, parallelograms, quadrilaterals</p> <p>5 angles: Pentagons</p> <p>6 angles: Hexagons</p>
Jump on all shapes with more than [1/2/3/4/5] straight side(s)!	<p>1 or 2 sides: Triangles</p> <p>3 sides: Squares, rectangles, rhombuses, trapezoids, parallelograms, quadrilaterals, pentagons, hexagons</p> <p>4 sides: Pentagons, hexagons</p> <p>5 sides: Hexagons</p>
Jump on all shapes with more than [1/2/3/4/5] angle(s)!	<p>1 or 2 angles: Triangles</p> <p>3 angles: Squares, rectangles, rhombuses, trapezoids, parallelograms, quadrilaterals, pentagons, hexagons</p> <p>4 angles: Pentagons, hexagons</p> <p>5 angles: Hexagons</p>

Rules	Correct Shapes to Jump on
Jump on all shapes with at least [3/4/5/6] straight sides!	<p>At least 3 sides: Triangles, squares, rectangles, rhombuses, trapezoids, parallelograms, quadrilaterals, pentagons, hexagons</p> <p>At least 4 sides: Squares, rectangles, rhombuses, trapezoids, parallelograms, quadrilaterals, pentagons, hexagons</p> <p>At least 5 sides: Pentagons, hexagons</p> <p>At least 6 sides: Hexagons</p>
Jump on all shapes with fewer than [1/2/3/4/5/6] straight side(s)!	<p>Fewer than 1, 2, or 3 sides: Circles (and ovals)</p> <p>Fewer than 4 sides: Triangles</p> <p>Fewer than 5 sides: Circles (and ovals), triangles, squares, rectangles, rhombuses, trapezoids, parallelograms, quadrilaterals</p> <p>Fewer than 6 sides: Circles (and ovals), triangles, squares, rectangles, rhombuses, trapezoids, parallelograms, quadrilaterals, pentagons</p>
Jump on all shapes with fewer than [1/2/3/4/5/6] angle(s)!	<p>Fewer than 1, 2, or 3 angles: Circles (and ovals)</p> <p>Fewer than 4 angles: Triangles</p> <p>Fewer than 5 angles: Squares, rectangles, rhombuses, trapezoids, parallelograms, quadrilaterals</p> <p>Fewer than 6 angles: Pentagons</p> <p>Fewer than 7 angles: Hexagons</p>
Jump on all shapes with exactly 3 sides and 3 angles!	Triangles
Jump on all shapes with exactly 4 sides and 4 angles!	Squares Rectangles Rhombuses Trapezoids Parallelograms Quadrilaterals
Jump on all shapes with exactly 5 sides and 5 angles!	Pentagons
Jump on all shapes with exactly 6 sides and 6 angles!	Hexagons
